11. Design a wireframe for a mobile application that incorporates security measures using Figma

PROCEDURE:

1. Open Figma and create a new design file.
2. Create a mobile phone frame.
3. Add the title “Secure Mobile App.”
4. Draw input boxes for Username and Password.
5. Add a Login button and a Forgot Password link.
6. Add a checkbox or button for Two-Factor Authentication (2FA).
7. Create a second screen for OTP verification.
8. Add a Security Settings section with options for screen lock and biometric authentication.
9. Use Prototype mode to connect the login and OTP screens.
10. Preview and save the wireframe.

OUTPUT:

Result:

A mobile application security wireframe was designed in Figma, illustrating login authentication, OTP verification, and security settings.
