9. Develop a user interface prototype for a GSM service using Figma
PROCEDURE:

1. Open Figma and create a new design file.
2. Create a mobile phone frame.
3. Add a title, “GSM Mobile Services.”
4. Draw buttons for Voice Call, SMS, Contacts, and Network Status.
5. Add simple icons and labels for each service.
6. Create additional frames for the calling screen and messaging screen.
7. Use Prototype mode to connect the buttons to the corresponding screens.
8. Preview and save the prototype.

OUTPUT:

Result:

A GSM service user interface prototype was designed in Figma, demonstrating basic mobile services such as voice calls, SMS, and contacts.
